MILWAUKEE DAILY SENTINEL.

VOLUME VIII.—NEW SERIES. MILWAUKEE THURSDAY MORNING, APRIL 15, 1852. WHOLE NUMBER 2274.

Milwaukee Daily Sentinel.

PUBLISHED EVERY MORNING, (SUNDAYS EXCEPTED,) BY

RUFUS KING & CO.,

AT THE OFFICE,

Nos. 205 & 207 EAST WATER STREET,

CORNER OF WISCONSIN STREET,

IN THE SECOND, THIRD, AND FOURTH STORIES OF LUDINGTON'S NEW BRICK BLOCK.

TERMS:

THE DAILY SENTINEL will be left at the door of City Subscribers at Six Dollars a year, payable Quarterly or 50 Cents a Month; or, 12½ Cents a Week, invariably IN ADVANCE.

TRI-WEEKLY SENTINEL—Three Dollars a year, invariably in advance, and the paper discontinued with the period for which it is paid, expires.

WEEKLY PAPER—Two Dollars a year, invariably in advance, and the paper discontinued, when the period for which it is paid expires. To CLUBS of Ten or More, to one address, the Weekly will be sent for ONE DOLLAR A COPY.

TO OUR ADVERTISERS.

IN ORDER that there may be no misunderstanding in relation to Advertising, we here state the rates determined upon in our daily papers, from Jan. 1st, 1851:

1 square (per year)	$12 00	1 square,	2 weeks,	$2 75
1 " 9 months,	10 50	1 "	1 "	1 50
1 " 6 "	9 00	1 "	5 times,	1 38
1 " 3 "	6 00	1 "	4 "	1 25
1 " 2 "	5 00	1 "	3 days,	1 00
1 " 6 weeks,	4 50	1 "	2 "	0 75
1 " 1 month,	4 00	1 "	1 "	0 50
1 " 3 weeks,	3 50			

Twelve lines Nonpareil (or less) make a square. Leaded Advertisements, "after reading matter," 50 per cent advance on the above rates.

One sqr. for a year, with a change once a week, $25; 2 sqrs. $40; 1 sqr. with a change every day, $50; 2 sqrs $100; 3 sqrs. $60; 4 sqrs. with four changes a week, $75; (DAILY PAPER NOT included.) No paper will be discontinued (unless at the discretion of the proprietors,) until all arrearages are paid.

Persons wishing to discontinue their yearly or casual advertising, must give notice at the Counting Room. All yearly advertisers discontinuing, their advertising before the year is out, will be charged at the above rates.

The privilege of Annual Advertisers is limited to their own immediate business, and all advertisements for the benefit of other persons, or on other business, must be paid for at the usual rates.

Communications, the effect of which is to promote private interests, to be paid for at the rate of 50 Cents per square for a single insertion.

In all cases where advertisements are sent in, marked "DAILY AND WEEKLY," they will be charged 50 Cents per square for the first insertion, and 25 Cents for each subsequent insertion in the Weekly.

Advertisements not accompanied with written directions, will be inserted one month, and charged accordingly.

IMPORTANT TO THE PUBLIC!
THE following advertisement was published in May, 1849, in the "Boston Daily Times," and various other papers on the United States, by one Ira Stout, who was the owner or the "Woodworth Patent," shortly after I had advertised my "PATENT STATIONARY CUTTER, PLANING, TONGUEING, AND GROOVING MACHINE," throughout the United States:

"PLANING MACHINES.

"I take this method of answering the frequent inquiries, by letter and otherwise, as to my opinion upon the various notices through the papers, of the Stationary Knife Planing Machines attempted to be palmed off upon several persons ignorant of their true worth. I would state for the information of the enquirers that they will find substantially the machine now offered by several pretending inventors, described in the 10th volume of the Repertory of Arts, invented by Samuel Bentham, in the year 1791. A like machine was patented in this country by one Kugler, some sixteen years since, and another one put up by Albert Richards, of West Troy, N. Y., and abandoned after the same time. It ought to satisfy the public to know that after fifty eight years experimenting upon these machines, not one in use is of any value for the purposes contemplated.

I will furnish a Stationary Knife Machine equal to any now in use, or to any offered by the pretending inventors, at the cost of the machine and $50 per cent for my trouble.

JAMES G. WILSON,
Philadelphia."

I deny that any person ever saw or heard of such a machine as mentioned, until I exhibited the same. Said machine operated in the month of August, 1848, and no machine before this could do so much work, and do it as well as mine. In reply to the above advertisement, and in order that the public may be assured that I mean what I say, I will offer to pledge ONE THOUSAND DOLLARS against an equal amount from said Wilson, that ONE of my machines will please or please, planing and grooving with less power, more lumber in the same time, and do it as well, or better than TWO of the "Woodworth" machines. The trial to be made at my factory, Milton Mills, East Boston, Mass., or at such other place as may be convenient for such a trial.

JOHN DWIGHT & CO'S
SODA SALERATUS
MAY be found at the Sugar Warehouse of Goodrich & Hunter, No. 42 East water-st.
The attention of the public is called to this article as being superior to Pearl's Saleratus in its effect—giving cookery a more delicate appearance and flavor; and also as more wholesome—Soda being more congenial to the human system than Potash.
Saleratus—a less quantity being required to produce the same effect. The article is put up in pound papers with full directions for use.
Also may be found John Dwight & Co's
Washing & Cleansing Powders,
which will be found, on trial, a very superior article, saving much labor of washing. Clothes, &c. It will soften hard water. To Engineers and Machinists it is invaluable for removing grease from Machinery and either Cotton or Woolen waste will not be liable to rust.
Directions for use are printed on each package.

The American Cough Candy.
WE know of nothing in the annals of medicine which has ever been received with the same space of time, so just and general a reputation, as the above invaluable *Cough Remedy*. Testimonials of its wonderful efficacy in curing the most inveterate cold and coughs, are daily given in. We are assured that where ever used it is superceding all other remedies of the kind. Gentlemen to relate, the Nightingale had she tasted its virtue, probably never would have taken to herself a Goldschmidt. Her having taken that melancholy step, from the fear that her voice was gone forever; having experienced only temporary relief from the Remedy last taken.
Why is the American Cough Candy like a Black Cloud? Because it goes ahead of Storms.

VOLUME VIII. MILWAUKEE DAILY SENTINEL. NEW SERIES.

Milwaukee Daily Sentinel.

THURSDAY MORNING, APRIL 15, 1852.

Rufus King, Wm. H. Watson & John. S. Fillmore PROPRIETORS.

EDITED THIS WEEK AND FIRM OF

RUFUS KING & CO.

FROM OUR N. YORK CORRESPONDENT.

NEW YORK, Monday, April 5, 1852.

We look in vain for Spring and genial weather, after the cold, fierce winter, but it comes not to our wishes. Occasional and transient glimpses of sunshine delude the hopeful—but soon the chill blasts and hurrying clouds recall the reality—and we are at this moment shivering under a freezing sky and rain that would be, and perhaps before midnight *will* be, hail, or snow. River navigation, however, is restored, and that is always a very important event in our city life—still important—altho' measurably less so, now that we have railways direct to Albany, than before the existence of these routes. Trade is active, altho' prices abroad are little encouraging—and money is plenty. I am grieved to see how unwise are the proposals occasionally made in your Legislature, of acts affecting credit; the latest I remarked was one for allowing, in cases of foreclosure of mortgage, two years for the redemption of the property sold. In a State abounding in every thing but money—with good climate, good soil, and industrious cultivators, and a go-ahead race of men—the true policy, for the good of all, is to attract money thither, by high interest, and good security, and steady laws. These cannot fail to attract it—but while capital tends eagerly to quarters where it will command the largest returns, it looks even more earnestly to security than to profit—and whatever shakes, or tends to shake confidence in the laws of the State, or the stability of its laws—does incalculable mischief—not to the capitalist at home, who is benefitted by the scaring away of competing capital elsewhere—but to every industrious and honest man in the State, who is hindered in his prosperity by the want of a little capital, which want good interest, and security founded on good laws, would certainly supply. What these injudicious movements in your Legislature are doing of mischief to Wisconsin—the repudiation, in other days, of Pennsylvania, Mississippi, Michigan, &c., has done for the whole United States. At this moment, millions upon millions of unemployed capital, are vainly seeking investment in England, in Holland, in Germany, and even in France. The rate of interest in London and Amsterdam ranges between 2 and 3 per cent per annum, while in this city it ranges, on unquestionable security, from 6 to 9 per cent; and in Wisconsin, I suppose, from 10 to 15. Now, nothing but distrust of the character and laws of the borrowers, could keep capital from seeking these higher markets—now that a space of ten days only separates us from England, and three from Milwaukee. In some degree, as to the U. States, this distrust is disappearing—and our U. States and State Stocks—and Railroad Bonds and Corporation Bonds, are in considerable demand, and have, to a considerable extent, lately been purchased on foreign account—but still our money market is less influenced than one would think it should be, by the lower rates of interest alone attainable in the money markets of Europe. So slow is the growth of confidence, which has once been deceived. You, in Wisconsin, are, I am persuaded, to some extent laboring, as regards the Eastern money market, under the same distrust, which in Europe is felt of our markets—and therefore it is, that for the interest of all industrious, hard-working farmers, mechanics, and manufacturers of Wisconsin, I lament every such measure as that proposed recently to impair the peremptory and final nature of a sale under foreclosure of mortgage—and that other mischievous proposition to repeal all laws for the collection of debts! No man of common sense but must perceive, that such a law as the last, would be most oppressive to those whom it purports to serve—the men who have willing hands to labor, and skill in labor, but no capital, and who therefore need the help of the capitalist—that help he is free to give or to withhold—and most assuredly, if you take away his remedy, in case of failure to pay on the part of the debtor—he will not lend. Honesty is the best policy for communities, as for individuals—and the policy of this bill is not honest.

If we would only be true and just to ourselves—stand upon the old ways of fair dealing—and hold to the sacredness of contracts and obligations—we need not long want the aid of capital—for Europe is—whatever the seeming may be—in a political ferment—two antagonisms of fearful and utterly irreconcilable pretensions are always in presence and eager for the strife, which is only held down by the iron heel of force. In such a condition, *confidence* is tremulous, and turns to our shores, where strength, wealth, union and Freedom, make assurance doubly sure, that come what may elsewhere, our Polity will stand—and with it, all honest engagements and undertakings. The absurd and ignorant *dogma* of Jacksonism, that they who traded on foreign capital ought to break, is now exploded of all thinking men—was indeed never entertained by thinking men—and is exploded, too, even of party hacks. We need foreign capital—and if only we will be just and true, it must come to us—but it can only be loaned or kept here, by justice and good faith—and in adhering to such practice and such principles. No State is more interested than Wisconsin. Apropos whereof—I do not like Railroad Bonds as security for the issue of Bank notes—not that they may not be perfectly good—but that they would not probably be found, in an emergency, *readily convertible*—as every security for the redemption of circulating bank paper ought to be.

A QUESTION ANSWERED.—The Green Bay *Spectator* copies from one of the letters of our associate at Madison, the following paragraph:—

In the course of the discussion, Dr. Peak, (who with most of the Northern members, voted for the bill) stated that he would be willing to enter into bonds to take the land remaining of the grant, and finish the whole Improvement without cost to the State. I heartily wish there was some method practicable, by which the Dr. or any other responsible man, could have the opportunity of accomplishing it.

The *Spectator*, affecting to discover some hidden meaning in this plain sentence, exclaims as follows:

Does the writer of the above seek to intimate that Mr. Martin is not responsible for the fulfilment of his contract? If not, why the slant in the last paragraph? The insinuation is ungenerous and unjust; if the Legislature and the Governor deal fairly by him, he will undoubtedly finish his work.

No "slant," or "insinuation" against Mr. MARTIN was dreamed of by the writer. His obvious meaning is, that since Mr. MARTIN finds difficulties in carrying on the work, under his contract, it were to be wished that Dr. PEAK, or any other responsible man, could have the privilege of taking the lands and finishing the Improvement, without further cost, or trouble to the State, as the Doctor professed his entire willingness to do.

NEWSPAPER CHANGE.—The *Journal* of last evening announces a dissolution of partnership between Messrs. WILSON and HAMILTON, the editors and proprietors. Mr. HAMILTON withdraws from the concern, in consequence of sickness in his family and his own physical inability by reason of ill-health to do the work devolving upon him. Mr. HAMILTON leaves his "best wishes for the success" of the *Journal* and Mr. WILSON, and trusts that "the party whose cause he so fervently advocates, "may come forward and give him that support "which was promised when the paper was started." Mr. WILSON, in assuming the whole charge and responsibility of publishing the *Journal*, appeals to his friends for "aid and encouragement," and having "done all that he promised" claims that others should at least do "half as much."

DANGEROUS COUNTERFEIT.—A counterfeit three dollar bill, on Burch's Chicago Bank, is in circulation here and elsewhere, very well calculated to deceive the inexperienced, or unwary. It is a very good imitation of the genuine bill, the main difference being that the words "Chicago Bank" in the genuine are *shaded*, while in the counterfeit they are clear.

From Madison.

EDITORIAL CORRESPONDENCE OF THE SENTINEL.

Madison, April 12.

There appears upon the Assembly journal this morning a protest by Mr. Ricker, of Manitowoc, making certain grave and unbecoming charges against the Governor, relative to his motive in recommending the establishment of an Emigrant Agency. Just before the expiration of the morning hour, Col. Botkin offered a resolution directing the Clerk to strike the protest from the journal. At his suggestion, the resolution lies over till to-morrow, when we shall probably see "a spark of war."

A thrilling remonstrance was read from certain residents of Dane County, relative to the passage of a bill allowing the people to vote yea or nay upon the question of subscription to railroad stock. Bunkerhill, Yorktown, the star gemmed flag, glory, &c., &c., and all that sort of thing were brought into requisition against the bill. Some of the most tremendous paragraphs were spoiled by bad chirography.

The Milwaukee County delegation, or a majority of them, reported through Mr. Cain against the law relating to the support of paupers in that County.

Mr. Strong, from a select Committee, reported a bill setting apart one sixth of the Improvement Fund for the Wisconsin river, and providing for leasing the water power to be produced by the lift lock at the Portage. The report states that, despite of the former law upon the subject, only some $2100 has been laid out upon that river, and what has been done has been an injury to the channel.

A motion to reject, by refusing a second reading, a bill submitting to the people the question of equal suffrage to colored persons, failed by the following vote.

Ayes.—Barber, Beck, Botkin, Briggs, Burnham, Catton, Conger, Crmmond, Fyffe, Graham, Hammett, Hoyt, Knoch, McKee, Monroe, Patch, Ricker, Safford, Staats, Strong—21.

Noes—Averbeck, Bancroft, Barlow, Blodgett, Burgess, Cain, Cate, Cooper, Donaldson, Fellows, Giles, Green, Hasse, Hilland, Kinney, Lawrence, Lewis, McNaughton, Mead, Moore, Mott, Peak, Pierce, Phelps, Powers, Ramsey, Root, Sholes, Skinner, Sterling, Sugden, Tway, Utley, Van Nostrand, Wood, Worthington, Shafter—37.

The Senate's State Loan bill does not meet with all the favor which was expected, and after considerable discussion, it was this morning referred to a select committee. There is a strong feeling against paying over 7 per cent interest on the bonds.

The Senate's land grant memorial for railroads, which, you will recollect, was substituted for that of the Assembly, and leaves out all proviso as to the price at which the land shall be sold &c., *will not pass* in any such form, as is clearly indicated by the course of the House to-day.

The Governor's Veto of the bill allowing one and two years redemption of property sold under mortgage foreclosure was taken up this morning, and the question being—shall the bill pass, notwithstanding the objections of the Executive—was lost—Ayes 18, Noes 36. The Ayes were as follows:

Averbeck, Briggs, Cate, Catton, Conger, Cramond, Donaldson, Fellows, Graham, Green, Hammett, Hoyt, Lawrence, Patch, Peak, Powers, Sholes, Sterling.

The Apportionment bill was taken up this afternoon and a rapid and masterly movement made by its friends to push it through—and the thing was done, too. All after the enacting clause was stuck out, and the original printed bill inserted, with amendments giving Walworth, Jefferson, Lafayettee, Dodge, each an additional member, and another to a new district composed of Door county and part of Manitouwoc. In this form, the bill was ordered to be engrossed in order to fit it to be sent to the Senate. Its friends, however, seemed to fear that there were "Indians about"—and voted to dispense with the engrossment. They then pushed the bill to its passage over all sorts of obstacles in the way of calls of the House, motions to adjourn &c. The vote was 37 to 20. It is hardly worth while to give the ayes or noes, since the impression is general among all parties that the bill violates the constitutional provisions relative to representation according to numbers, and, even if it passes the Senate, which is not unlikely, cannot pass the Governor. For instance, the six counties on the Mississippi, north of the Wisconsin, with a population by the census of 1850 (the lawful guide) of 4223, are given three members and a Senator!—and the provision was the same in the Senate bill. Again, there was a good deal of feeling exhibited this afternoon when Mr. Cain proposed to change the apportionment of Milwaukee County so as to give her, with 31,116 inhabitants in 1850, 3 Senators and 8 members; and yet the old counties of Brown, Calumet, Manitowoc, Portage, Adams, Marquette, and Sauk, with a reported census of 26,600 are given 3 senators and 9 members. It was generally conceded that all possible benefit by fractions, should be given to the northern counties, and this might easily be done without such gross violations of propriety as are exhibited in the bill. Despite all these things, there being no doubt that the present population of those counties fully entitles them to the increase asked, it would be satisfactory to the large majority of the people, did not the Constitution stand in the way.

The Senate has to-day passed a bill giving Mr. McNiel, late contractor on Portage Canal, $7,000 damages for failure of the dredge—a twin brother to Mr. Reynolds' bill. They also passed a bill authorizing the State Superintendent to subscribe for some 1,500 copies of a monthly District School Journal. It is understood to be a project of the *Argus* office, and I fear is destined to an untimely death in the House, where so many other projects have been ruthlessly slaughtered.

The General Banking Law was taken up in Senate in Committee, and good progress made—in fact, I believe, they cleared all the amendments reported by their select committee. The most important amendments adopted were the increase of Rail Road securities of $8000—the designation of the states whose stocks may be taken—and the rate of interest to be 10 per cent, till 1860, instead of 9 per cent till 1858, as the bill from the House had it.

The House and a full assembly of spectators listen to-night to Moses M. Strong on Banking and Railroad securities as connected therewith.

W. H. W.

RAIL ROAD CONVENTION.—The attention of our readers is invited to the proceedings of the Rail Road Convention, held at Guttenberg, Iowa, on the 23d Feb. It will be seen that our neighbours across the Mississippi are watching, with eager interest, the progress of our Rail Road, and are preparing to welcome its approach to the great river, with hearty cordiality. Every day renders more and more apparent the immense importance of this great thoroughfare, to our City and State—as every day makes more and more certain its speedy completion and profitable character.

SURVEY OF THE LAKES.—The Detroit *Free Press* states that a Topographical party is ready to return to Mackinac, as soon as practicable, to complete the Survey of the Straits, and that a detachment will be sent to complete the survey of Green Bay. It says that after their labors are closed the public may rely on the most complete and accurate charts of the Straits and that Bay, and urges upon Congress the importance of taking immediate measures to complete a survey of the whole lakes.

STATE STOCKS.—The Senate have amended the General Banking Law in several particulars, noticed in our Madison letter. One of these amendments restricts the stocks receivable for Banking securities to those of the "New England States, Wisconsin, New York, Ohio and New Jersey." We think Virginia might be safely and properly added to this list.

VETO SUSTAINED.—It will be seen by our Madison letter that the Assembly, upon a sober second thought, have sustained by a vote of *two to one*, Governor FARWELL'S Veto of the bill extending the time for redeeming property sold under Foreclosure in Chancery. This vote is not only complimentary to the Governor, but highly creditable to the good sense and manliness of the Assembly.

Important from Madison.

Our brief Telegraph despatch from Madison brings intelligence of the passage of several important bills. The Senate have passed the Bank bill, substantially as it passed the House, by a vote of 10 to 6. The Separate Supreme Court bill, and the bill providing for a State loan of $50,000, have passed *both* Houses. A private despatch states further that the Fox River Improvement Bill has been passed over the Governor's Veto.

Foreign News at Hand.

There is another steamer in, but we failed to obtain her news by Telegraph, yesterday. The only trace we can get of it, is in the following paragraph from the Detroit *Free Press* of Tuesday.—If correct, there has been another Ministerial crisis and upturning in England, and an entire "new deal":—

The telegraph announces a foreign arrival:—
MINISTRY IN ENGLAND.—Sir Jas. Graham, Prime Minister; Lord John Russel, Sec'y Home Affairs; Lord Palmerston, Foreign Affairs; Selden and Bright called to the cabinet.

BLEAK HOUSE.—A foreign correspondent writes to the National Intelligencer, that the "*Bleak House*" has had the largest sales of any of Mr. Dickens's serials so far. The first impression of twenty-five thousand copies was swept up by the trade at once; twenty thousand were put to press immediately after, which have been nearly disposed of. Take the whole issue at forty thousand, and, say half is clean profit, (a moderate calculation,) there is £1,000 a month from this source alone, saying nothing of the value of the copyright.

ORATORIO OF THE SEASONS.—The Milwaukee Musical Society have been diligently engaged, for some months past, in rehearsing the Oratorio of the Seasons, and have so far progressed in their preparations that it will be brought out, probably, on Friday, the 30th instant. It is a superb composition and under Mr. BALATKA'S skilful direction will be admirably performed by the Members of our Musical Society.

EMIGRATION SOCIETIES.—The citizens of Green Bay have organized a "Northern Wisconsin Emigrant Society," the objects being to counteract the strenuous efforts, made by other States, to divert emigration from its natural channels, and to take such measures as shall invite and increase emigration to Northern Wisconsin. The *Spectator* recommends the formation of auxiliary societies, in all the Counties between Green Bay and the Mississippi.

NEW POEM BY BRYANT.—The immortal author of "Thanatopsis" and the "Hymn to Death," has just publi-hed a sequel to those sublime strains, called a "Vision of Immortality."—*Wisconsin* of yesterday.

The *Commercial* has the same statement. Both, however, are mistaken. Mr. BRYANT, who may be supposed to know, disclaims the authorship of the "Vision of Immortality."

ERIE HARBOR OPEN!—By reference to our Telegraphic despatches it will be seen that the ice-embargo at Erie has been raised, and that Steamboats can now get in and out. From Erie there is a continuous Railway communication to New York.

DROWNED.—The dead body of a man about 35 years of age was drawn from the river, at the foot of Mason-st., yesterday afternoon. It had been several months in the water and had not been identified, up to the hour of our going to press.

THE RED BRIDGE.—Whatever the *legal* merits of the "Red Bridge" may be, its *practical* merits are unquestionable; the new structure being altogether the best of the lot, and indispensable to the business and social intercourse between the opposite sides of the river. We cannot understand why there should be the least objection in any quarter to its becoming a fixture.

THE TORREY TROUPE.—We are glad to announce that Mrs. TORREY and Troupe propose to give another concert in our city on Saturday evening next, preparatory to their departure for Chicago, St. Louis, Cincinnati &c. See Programme in our columns.

FREIGHT FROM NEW YORK.—The attention of those interested is invited to the card, in our advertising columns, from the New York and Erie Rail Road Company, offering to make contracts for transporting freight and merchandize to and from New York. They are prepared to do up business with punctuality and despatch.

THE BLACK SWAN COMING!—This musical prodigy gives a Concert in Chicago to-night and will give another in this city on Monday evening next. Report speaks in glowing terms of her extraordinary powers.

SALE OF CHOICE PICTURES.—Mr. TORREY will sell to-morrow (Friday) evening a lot of very desirable pictures, to which he invites the attention of all patrons of the Fine Arts.

MR. CLAY.—A despatch from Washington, dated the 7th, says "Mr. CLAY is again relapsing into a condition of serious prostration, after having been for some time encouraged by cheering symptoms."

MAILS COMING.—By the *Sam Ward*, yesterday afternoon, we received from Chicago, the first instalment of a monster mail, which has accumulated along the route during the past week. No papers east of Cleveland, however, except those from Albany of the 5th and 6th instant.

THE WISCONSIN PRESS.—The Sheboygan *Mercury*, correcting the statistics of the *Statesman*, as to the number of papers published in Wisconsin, says that there are four Weeklies in that County; to wit, two English, are Hollander and one German.

PUBLIC SCHOOLS.—The Public Schools in the First, Second and Third Wards will not be opened till Monday next; the School Houses requiring sundry repairs, whitewashing, painting &c. The Schools in the Fourth and Fifth Wards were opened yesterday.

TOWN MEETINGS.—In Brown County, each party have carried three towns, so that the Board of Supervisors is *tied*, 3 Whigs and 3 Locos. In Sheboygan County, the whigs have elected 6, and their adversaries 7 Supervisors.

COMMON COUNCIL.—A regular meeting of the Common Council will be held at their rooms in Martin's Block at half-past 2 o'clock this afternoon.

CONCERT AT RACINE.—Mademoiselle JACQUES and her party will give a Concert at Racine *this* evening, which we venture to assure our Racine friends will be abundantly worth the hearing.

QUADRILLE PARTY.—The last Quadrille Party of the season is to be given at Gardiner's Hall to-night. It promises to be a pleasant affair.

Chief Engineer of the Improvement.—We are pleased to learn indirectly, that J. KIP ANDERSON will be retained as Chief Engineer by the present Board of Public Works. Had Mr. Anderson been chosen to that position by the first Board, we do not entertain a doubt that thousands of dollars would have been saved to the Improvement Fund.—*Green Bay Spectator*.

RAIL ROAD CONVENTION.

A Convention of delegates from the counties of Clayton, Allamakee, Winneshiek, and Fayette, Iowa, and Grant county, Wisconsin, was held at Guttenburg, pursuant to previous notice, commencing on Monday the 23d of February, 1852. The Convention was called to order by appointing Hon. Eliphalet Price President, and E. H. Williams, Esq., Secretary pro tem.

On motion, the chair appointed a committee, consisting of Samuel Hull, H. McSwain, Jacob Ly Brand, Lawrence McNamee, J. M. Griffith, Alex McGregor, J. M. Young, J. G. Border, and S. H. Greenup, to report the names of suitable persons for permanent officers of the Convention.

On motion, the chair appointed Samuel Murdock, J. M. Rogers, and M. K. Young, a committee on credentials. Said committee, through their chairman, S. Murdock Esq., reported one hundred and fifty-six entitled to seats in the convention, and of that number, the following members were present:

From Allamakee and Winne-biek counties, Hon Elias Topliff, Jacob LyBrand, John Laughlin, Leonard B. Hodges, John P. Reed, Reuben Smith, J. Summer, Thomas A. Minaud, David Reed, Benjamin Beard, John McKay, and Henry McSwain.

Fayette County—Hon. Thos. Woodle, M. V. Burdick, H. S. Branson, Wm. McClintock, Sam'l Hull, J. M. Rogers, Gabriel Long, John Meyers, John Webb, S. H. Greenup, Lemuel Iliff, George Hoover, A. C. Perry, P. R. Moore, and Alex Musselman.

Delaware County—Leonard, Wilsie, Perry, Perkins, L. McNamee, Sam. Dixon, Jeremiah Page, Stanchfit, J. H. Mattock.

Clayton County—Charles Blanchard, S. R. Peet, Wm. Hardin, J. M. Griffith, Wm. Grant, John Kinyon, Henry Redman, W. Emerson, A. M. Kimball, Wm. Woodworth, Silas Woodward, Wm. Scott, S. H. Buck, Joseph Shaff, Chas. Watkins, Alfred Smith, M. A. Knight, Wm. C. Alexander, S. G. Collins, A. G. Scott, Graham Thorn, Geo. Shober, Albert Skinner, Wm. H. Gould, J. F. Campbell, David Ring, B. H. Williams, Sam. Murdock, Reuben Noble, A. D. Wanzer, E. Hurk, A. C. Rogers, H. S. Granger, B. F. Fox, Moses Predmore, John Thompson, Michael Urell, H. P. Carter, J. S. Lewis, Jacob Garber, John Garber, F. Hartze, E. T. Smith, B. E. Smith, J. K. Barnes, Wm. Baker, Geo. V. Gardiner, S. G. Parish, Wm. H. Allison, J. G. Wolton, Alex. McGregor V. H. Miller, A. H. Mallory, J. W. Fotts, Joseph McSpeurin, John Lockbridge, Presley Bailey, John Brown, John Saugrant, Eliphalet Price, A. Wood, N. Weaver, S. C. Rudes, E. W. Kulp, H. Haven, Parten McMellan, G. J. Border, E. D. Meyes, Jesse Biggs, David Gillilh, H. Day, Wm. Stephen, Hiram Packhurst, and Charles Hodman.

Grant Co. Wis.—E. P. Smith, Cyrus Sargeant, H. Smith, W. B. Slocum, Benj. Briggs, Geo. W. Lee, Wm. Richards, J. M. Young, M. K. Young, and Mr. Way.

On motion, the report was received and the committee discharged.

The Committee on officers, through their Chairman, S. Hull, Esq., made the following report.

For President—Hon. Eliphalet Price.

For Vice Presidents—Messrs. M. K. Young, Grant Co., John McKay, Winneshiek, Hon. Elias Topliff, Allamakee, Lawrence McNamee, Delaware, Dr. J. M. Griffith, Clayton, Hon T. Woodle, Fayette.

Secretaries—Messrs M.V. Burdick, H. S. Granger.

On motion, said report was unanimously adopted.

On motion, the chair appointed a committee of 7 to draft resolutions expressive of the sense of the Convention, Messrs. A. C. Rogers, Thos. Woodle, S. Murdock, Alexander McGregor, E. P. Smith, John Sargeant, and John Thompson, said committee.

On motion, the Convention adjourned till 8 o'clock, p. m.

8 o'clock, p.m.—The Convention met pursuant to adjournment.

On motion, Prof. Craig was invited to address the Convention on the following resolution, introduced by E. H. Williams:—

Resolved, That the counties north of Dubuque, and extending west to the Missouri river, are equal in natural resources to any other section of Iowa, and are sufficient to reward the Milwaukee Railroad Company for terminating their road opposite these counties. Professor Craig illustrated in a very able manner the Geological and Mineralogical resources of Northern Iowa, and more especially the Counties of Clayton, Allamakee, Fayette and Winneshiek, showing conclusively that the same stratification of rock, and not only by inference, but from actual examination, that similar mineral deposits exist here as in Dubuque and the adjoining counties in Wisconsin.

Pending the adoption of the resolution, several gentlemen responded to the calls made upon them, in a spirited manner, directing the attention of the Convention, not only to the agricultural and manufacturing resources of the country, but to the proposed object, viz: terminating the Milwaukee railroad opposite these counties.

On motion, the resolution was adopted, and the Convention adjourned, to meet again tomorrow morning, at 9 o'clock.

Tuesday, 9 o'clock, a. m.

Convention met pursuant to adjournment. A motion was made to equalize the votes among the different counties represented in the Convention, which resulted in some spirited remarks, and was lost.

The committee appointed to draft resolutions expressive of the sense of the Convention, though their Chairman, A. C. Rogers, made the following report:

Your committee, appointed to draft a preamble and resolutions expressive of the sense of this Convention, respectfully beg leave to report as as follows:

Whereas, the building of Railroads forms a distinguishing feature in this age of improvement and progress, it is high time for the people of Northern Iowa and of that portion of Wisconsin contiguous thereto to look to their interests, as R. R. communications with the commercial cities of the east are rapidly progressing and extending westward.

And whereas, the Milwaukee and Mississippi Railroad being the particular road in which we are at present more particularly interested, which is now being constructed, will be, as we understand, completed to Madison, (the capital of Wisconsin,) the coming summer or autumn. The time, the effort, must be near at hand when the termination of said road will be established on the Mississippi River, and the point that may be decided upon is not only of vital importance to us, but also to the stockholders in said road.

It appears evident to your committee that if the company engaged in building said road, consult what is evidently their true interests, they cannot go below Cassville on the south, or Prairie du Chien on the north: for Milwaukee and the direction of said Road cannot be insensible to the fact that to terminate said road between the points above mentioned, it would pour into that city the great agricultural and mineral productions of Northern Iowa. Besides the road terminating at the above stated, would form an important link in a chain of Railroads that would ere long start west ward from the point of its terminus on the Mississippi River to the Missouri River, and thus to the Pacific, traversing one of the finest countries of the same extent, in America, abounding in mineral wealth and every variety of excellent soil. This is no idle speculation, as a glance at the map of the country will satisfy any one that the wants of the people of northern Iowa, and the interests of the city of Milwaukee would very soon push a railroad west to the Missouri River. This would enable Milwaukee to drain the valley of the Moines, the Missouri, the Platte, and even the Yellowstone, and would place Milwaukee in competition with St. Louis, not only on the Mississippi River, but even on the borders of the State of Missouri. As soon as the road is completed across Wisconsin, our interests and the interests of Milwaukee become one; we shall then be connected with her by ties of the strongest commercial interest.

And, whereas, Northern Iowa is increasing in population now more rapidly than any other part of the west, and the trade of which Milwaukee will command if the road is terminated between the points above designated AND NOT OTHERWISE.

Therefore, Resolved, That nature and the onward march of emigration, clearly and forcibly indicate that the Milwaukee and Mississippi Rail Road *must*, to be profitable, and to command what properly belongs to the enterprise, terminate between Cassville and Prairie du Chien, on the Mississippi River, following the unbroken divide from Madison to the points above mentioned.

Resolved, That a committee of five be appointed to correspond with the President, and through him with the Milwaukee & Mississippi R. R. Company requesting to know if said company would undertake to make a topographical survey of the continuation of their road from Madison city to the Mississippi river providing the people of those counties of Wisconsin and Iowa interested in the same should defray a portion of the expenses necessary to accomplish that object; said road to be surveyed to the vicinity of the Mississippi river, with internal branches running to such points upon the same as may be designated by a future convention.

Resolved, That the object of making a survey of branches to various points upon the Mississippi river is for the purpose of enabling the Milwaukee Company to determine the most eligible and practicable point for a terminus of their road, in the event that the western border of Grant co., at or above Cassville, should be selected by them for that purpose.

Resolved, That in the event of said company receiving a favorable answer, they are authorized to call a Convention of delegates from the several counties interested in the same to meet in the town of Patch Grove, in the county of Grant at such early day as they may think proper.

A. C. ROGERS,
Chairman.

On motion, the report was accepted and the committee discharged. Pending the adoption of the resolution the convention was addressed by M. K. Young of Grant Co. and R. Noble of Clayton.

On motion, the resolutions were unanimously adopted.

The following named gentlemen were then appointed a committee in accordance with the above resolution.

M. K. Young, Esq., Grant Co., Wisconsin; Hon E. Price, Reuben Noble, Esq. Alex McGregor, Esq., Clayton county, Ia; Wm Clintock, Fayette county.

The chair announced the completion of the regular business of the Convention.

Whereupon R. Noble and S. Murdock Esqs., introduced resolutions looking to grants of land to aid in the construction of certain roads in northern Iowa and more especially the extension of the Milwaukee and Mississippi road through to the Missouri river, running parallel with the Davenport and Council Bluffs's road.

Pending this adoption the convention was addressed by R. Noble, S. Murdock, E. H. Williams, W. McClintock, H. Brunsen, T. G. Rogers, and others; but for want of time the same were indefinitely postponed.

On motion, Messrs. Young, Noble and others were requested to forward copies of their speeches to the secretaries for publication as part of the proceedings of the convention.

Resolved, That the proceedings of the convention be signed by the officers and copies thereof be forwarded to the Dubuque and Milwaukee papers for publication, and that a copy of the same be furnished our Representatives in Congress.

Resolved that the thanks of this Convention be tendered to the citizens of Guttenburg for their kindness and hospitality the delegates from the county.

On motion the conventionadjourned since die die.

ELIPHALET PRICE,
President.

Vice Presidents.—M. K. YOUNG, Jos. MCKAY, E. TOPLIFF, L. MCNAMEE, J. W. GRIFFITH, THOS. WOODLY.

THE CALIFORNIA EXODUS.—The movement Californiaward, overland, is a perfect astonishment. Teams are continually passing at all the ferries across the Mississippi, as far as we can hear. A gentleman from Mineral Point informs us, that three hundred persons have left that town this spring, and we hear from Dodgeville, that one half of the inhabitants have gone. Every one to his own taste and liking. We prefer better quarters at a less price than they will have to pay. The emigration, as we judge, exceeds this year, that of 1850. It is probable, too, that the general equipment for the journey is far superior to the one of that year. The wagons are all new, long and light, yet substantial, and are most of them drawn by oxen. Those who have chosen the adventure appear to have acted with cool deliberation. They have our best wishes for success, though our judgment does not coincide with theirs as to the reasonableness of the movement as a business adventure.—*Galena Gazette*, April 10th.

A HUMOROUS LETTER—TELLING THE TRUTH.

Way up in the "Northern Country," between New York and the Canada Line, there are several gentlemen living upon estates owned by them. A friend of one of the gentlemen, wrote to him from New York city, making inquires with a view to "emigration," if the information received was agreeable. The Burlington (Vt.) *Free Press* publishes the reply, which represents this undiscovered country, a second Beulah. The reply is as follows:

——— February 29th 1852.

Dear Sir—Yours of the 20th, is received, and I hasten to give you the information desired, for the benefit of your friend, as follows —

The soil, when you can get at it, is composed principally of Conglomerate, viz: a mixture of muck, moss, decayed fern leaves, paving stones and snow.

The face of the country, when not covered with snow, is covered with a growth of Hemlock, Tamarac, Spruce and Cedar timber, except those portions which the enterprise of former years has attempted to clear,—these are covered with stumps rocks, fallen trees, alder bushes and brambles.

The fruits are various, comprising most of the species found in high latitudes, such as Chokecherries, Moose-berry, whortle-berry and black Raspberry, the latter in great abundance and perfection.

Among the game is to be found the domestic fowl, the Swallow, Crow, and Blue-Jay, and in mid-summer, the Night-Hawk, and Screech Owl.

The animals hunted for their fur are the Cat, the Chip-monk, the stray dogs—those chiefly esteemed for their flesh are the Musk-rat, Skunk, and Woodchuck.

The Fishes embrace a great variety, from the Tad-pole, to the Bull-pout—the Sucker is salted down for winter use.

The principal articles of consumption, are Pork, White Beans, Apple-sass, and Rye Whiskey.

The principal articles of import, are dried apples, Buffalo coats, tea, tobacco, cotton-cloth, molasses, Logus cigars, and spoilt oysters.

The articles of export are few, being only such things as they don't want themselves—the principal are, Convicts to Auburn and Sing Sing Prisons, and Emigrants to California.

The chief productions, are white headed children, which in time grow to be lumbermen, peddlars, deacons, squires, politicans and rogues.

Their means of getting a living are ingenious and varied—the most ostensible, however is 'dickering,' at which they are very expert, swapping horses, trading cattle, and getting boot.

Their chief amusements, in winter, are keeping up a fire, watching the weather, going to funerals, whittling, and breaking steers—in summer these are varied, by getting out manure, hoeing corn, acting as bear scare crows, and getting "down-sick," eating green apples.

The range of domestic duties is confined altogether to chance, and the "women folk."

Their principal business is an impertinent interference in other people's affairs, to the entire neglect of their own, exaggerating evil reports, throwing obstacles in the way of public improvements, talking politics, and doing choires. The young leave their parental roof at a tender age, and commence on their own hook, peddling popcorn, gingerbread and molasses candy.

The climate is a cross between Lapland and Siberia, not quite as cold as the one, and a good deal colder than the other, but healthy. The principal diseases, are lame stomach, delirium tremens, and "folk is sick."

The articles of luxury, most esteemed, are salt codfish, dried pumpkins and woollen gowns.

The articles of furniture, are a cook-stove, mop-pail and wash-dish.

Their farming implements, consist of an axe a saw, a log chain, generally hooked, and a jack knife.

Their education is confined to writing their name, guessing off hogs, and making axe-helves.

Their moral and religious ideas, are vague and loose. They generally live to a green old age and die as green as they lived.

Their principal places of resort, are the platforms of Railroad Depots, Bar-rooms, Justices Courts, and public and private offices, where they have no business.

Their habits are predatory and migratory.

If your friend is a bachelor, it may be interesting to him to know, that the Females (with a few exceptions) have no front teeth, but their eye teeth are cut early, and are sharp and well developed. If these are any points not touched upon likely to influence him in the choice of a residence, I hope you will have no hesitation in asking further enlightment.

Yours, ever,
&c, &c.

River and Harbor Improvements.

Washington, April 9.

The Committee on Commerce and Navigation, have agreed upon a bill for the improvement of Rivers and Harbors, which will probably be reported on Tuesday. The items sum up about $1,200,000. Of this amount $50,000 are assigned to the improvement of the Hudson River, and $20,000 for the removal of the obstructions in the channel of Hurl Gate, to be expended under the direction of the War Department. The Committee has given mature consideration to the petition of the New York Chamber of Commerce for the reimbursement of about $10,000 expended in the operations of M. Maillefert upon these rocks, and have refused to pay it. The breakwater at the mouth of the Delaware comes in for $30,000. The appropriation for the Mississippi and Ohio rivers $200,000.

The amount of the bill for these purposes which, was defeated by the factious opposition of certain Senators on the last night of the last Congress, was $2,300,000. A many appropriations were included in it, without regard to their merits but with a view to conciliate opposition. I learn that the greatest care has been taken by the Committee to adopt no appropriation which was not proved to be both necessary and advantageous. All claims were subjected to a very close scrutiny, and there is no reason to suppose that any item of even doubtful propriety has been admitted into the bill. The Chairman of the Committee, Hon. D. L. Seymour, of New York, has labored with a conscientious industry, which ought to secure the success of the measure.

N. Y.

IT MOVES.—The contract for building the Harbor at this point has been concluded with Abel Hawley, Esq., of Milwaukee. He will soon have his force on the spot, and before the November gales sweep along our coast, a snug and safe shelter from the storm will be found at Sheboygan, for the shipping on the lakes. The time allowed in the contract for the completion of the work is eighteen months; though the probability is, it will be done in much less time.—*Sheboygan Mercury*.

FLAX COTTON.—The editor of the Albany Evening Journal has been presented with a specimen of Flax Cotton, prepared by the "Chevalier Claussen process," which in appearance so nearly resembles ordinary cotton as to be easily mistaken for it. On a closer examination, however, it is found to have a more fibrous appearance indicating great strength. The pamphlet that accompanies it contains an account of the operations of Chevalier Claussen's flax works at Stepney, England. The process is said to occupy at the longest two or three days. By the old method it took as many months—sometimes twice as many. The following estimate of the cost of production and value of the article is given. It will be observed that flax straw is put down at the rate of $10 ₱ ton. But it can generally be obtained at a much lower rate:

Five tons of Flax straw, at $10,	$50 00
Ingredients employed, labor and interest on capital invested,	60 00
	$110 00
One ton of flax cotton at 10 cents per pound,	200 00
Profit on one ton,	$90 00

The Scotch patent is said to have been sold for £25,000 sterling, ($125,000,) and the French patent for double the amount. Those of Maine, New Hampshire, Vermont, Massachusetts, Connecticut, Rhode Island, New York and Illinois have also been sold, and applications have been received from every state in the Union, not excepting Oregon territory.

Who Is the Strong Man?

A few days ago, The *Sun*, (Philadelphia,) edited by a Custom-House officer, but professing to be the organ of the "Natives" of that city, came out against Gen. Scott for the next Presidency, averring that he could not carry Pennsylvania because he had (years ago) written a letter repudiating Nativism. Thus was the Whig party admonished by the Custom-House editor of the *Sun*:

"It is to the great party that we now address ourselves, inviting their attention to the

☞ A correspondent at Fort Atkinson, under date of April 1st, gives the following account of the freaks of a streak of lightning:—

The house of my neighbor across the way, Mr. Emery Rawson, was struck by lightning in the shower of Monday evening, about 10 o'clock. The fluid struck the top of the chimney, knocking off some half-dozen bricks, it then separated in parts, one division took down a rafter, next to the chimney splitting it in pieces, and down the stud directly underneath the foot of therafter, & then took a turn along the cross sill under the floor in the cellar till it came to a post directly under the chimney, splitting it in two and lost itself in the bottom of the cellar.

The other division went straight down the chimney to the stove pipe. It then followed the pipe and stove down, and off down one leg to the block on which the leg of the stove stood, splitting it in a number of pieces, and then followed a crack of the floor some four feet tearing up silversaix or eight inches long, and scattering them about the room. Now what is remarkable about it is, there were seven persons in the house, and all within from one to eight feet of where the fluid passed, and none of them hurt. The family were all in bed and most of them asleep.—*Watertown Register.*

TOWN MEETINGS.—The Elections for Town Officers are held to-day, throughout the State. Notwithstanding the earnest exhortations of the *Commercial*, we notice that "People's Tickets," made up without respect to party, and with reference only to character and qualifications are running in a good many towns, and we shall not be surprised to hear that they have been generally successful.—*Milwaukee Sentinel.*

YOU will not be disappointed when you hear from this part of the state, and as near as we can learn Wisconsin democracy is at a discount and our advice to those having any on hand is to dispose of it that once, as it is settled beyond a question, that it will not be redeemed next fall.—*Sheboygan Mercury.*

NEW GUIDE,

FOR THE

OVERLAND ROUTE TO CALIFORNIA.

THIS book is compiled from notes made on the Journey for the express purpose of furnishing a correct and reliable Guide Book to the over-land emigrant. The want of such a work has been severely felt by all who have crossed the plains. Much suffering and loss of teams have been occasioned, for want of a knowledge of the distances from grass to grass, and from water to water, and for proper directions to find good camping places. This book contains advice upon all these points in full; also as to the best roads and short cuts, by following which, much travel and labor may be saved.

The following is an extract from a letter written by Mr. J. P. Welsh, of Milwaukee, who made the overland trip in 1851. He took with him a copy of this work and says:

"In regard to the 'guide' you furnished me, it has proved very accurate, and been mainly depended upon, though we had Mormon and other guides, some quite intimate and extensive. Even some persons, who had once crossed, asked for copies of part. For Sale by S. CHAPMAN, East Water St. and B. B. BIRD, Wisconsin St. April 2.-ad-2w

THE WORLD'S FAIR

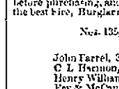
PREMIUM SAFES.

DEPOT,

Green Block, Water St.,

(Between Maiden Lane and Wall Street,)

NEW YORK.



THE SUBSCRIBER PLACED HIS FIRE AND BURGLAR-Proof Iron Safe in competition with the whole world at the great Exhibition in London, for which an impartial jury awarded a medal.

The American Fair, held last fall at Castle Garden, also awarded to him a gold medal for the best Fire-Proof Safe, and he has never failed to obtain the highest premium when his safe has been put in competition with others for that purpose. Certificates have been received from the following well-known mercantile houses, who have had their books, papers and money preserved in these superior Safes when fire, burglary and bankruptcy have swept them away, viz: Messrs. Sidwell & Simmons, and Mr. J. I. Watkins, in the Fulton Street fire; Messrs. Fisher & Robinson, and Messrs. John Loetwood & Co., in the great fire corner of Liberty and Nassau Streets, and Messrs. Proud & Bowman, in Jersey City.

I am the proprietor of HALL'S PATENT LOCK, which obtained a medal at the Fairs of Adams & Co., Boston; at the World's Exhibition, and is considered the best Lock for the price, ever invented, being proof against powder, and the key is no larger than a cent, and can be made changeable.

I invite all purchasers to a close and careful investigation before purchasing, and decide for themselves, who makes the best fire, Burglar and Damp-Proof safes combined.

No. 11, 155 acres, fenced and watered.

No. 12, 200 acres, fenced and watered, 20 acres plowed. Also 750 acres timbered land.

Farms Nos. 1 and 3 have each an orchard of grafted apple trees, selections of choice varieties of fruit.

Said farms are mostly prairie with oak openings. Surface, diversified in plains and undulating. Remarkably well watered with living springing branches. Rock Creek, and Pine and Wisconsin rivers. Soil, a mixture of sand, clay and loam, adapted to wheat, corn, barley, and all grains of the climate, and particularly for sapling, timothy and clover to flourish and yield large crops. The extensive range of prairie and natural meadow, with an abundance of pure water, afford the most favorable opportunities for

Dairy, Stock-Raising & Wool-Growing.

Said farms are situated from one to three miles from Richland City, (on the Wisconsin river,) in a section of country unsurpassed for healthfulness.

The Timbered Land are twelve selections, and are situated along the Wisconsin and Pine rivers, and from one-half to two miles from the Village, where a favorable opportunity (from the abundance of good sawing timber, the price of lumber, and the facilities for market,) is offered for a profitable investment in manufacturing lumber by steam power.

Said Timbered Lands will be sold in tracts to suit purchasers. GARWOOD GREENE,
BRUNNEZER LANE.

Richland City, Wis., Jan. 2, 1852.

G. GRÆSSLE'S

PRESSED, FIRE-PROOF TILING.

CERTIFICATES OF RECOMMENDATION.

BY the present, I attest my entire satisfaction with the roof of my house, covered with the pressed, fire-proof Tile, invented by Mr. Græssle; having found them perfectly secure during snow-storms, rains, wind and intense cold. I hereby take occasion to recommend said roof coverings to every house-builder, inviting them to satisfy themselves by a careful inspection of the excellent quality of the same by personal observation.

ENNO MEYER,
Druggist, 374 W. Water-st., 2nd ward.

Milwaukee, Feb. 3, 1852.

To enlarge I found true in every respect, as to the roof of my house, covered with the same Tile, invented by Mr. Græssle.

AUGUST KRUG,
Brewer, Chestnut-st., 2nd ward.

The undersigned, having carefully examined the pressed roofing Tiles, invented by Mr. Græssle, have found them perfectly answering the purpose intended. Their practical and ingenious construction recommend this kind of Tile, not only as a fire proof and perfectly water-proof covering, but above all for its durability. The timbers and chambers not only exclude the entering of snow or rain-water, but, by their form and precise joining of one into the other, they give to the single Tile as well as to the whole covering an absolutely immovable position and an intimate connection. Besides this, Mr. Græssle's method of burning the Tiles, deprives them of the injurious tendency to absorb water, making them in this way durable and joining to the above another virtue, viz: that of dispensing with repairs. The undersigned therefore consider ourselves fully justified in recommending to the building community the above roofing Tile as an excellent and valuable material.

OTTO SCHWARTZ, } Architects
GUSTAV SCHULTE, } & Builders.

Milwaukee, Feb. 5, 1852.

To G. Græssle:—I have examined the Roofing Tile made by you, and have no hesitation in recommending them to general use, and particularly as a fire-proof roof.

G. W. MYGATT, Architect.

SHELDON'S WATERPROOF

LEATHER POLISH!

Do you know that of all the articles manufactured in this city,

SHELDON'S OIL WATER PROOF POLISH

Is attracting the most universal admiration where it has been tested? We can produce testimony of the highest respectability, and are confident of yours, if you will but give it a fair trial.

It surpasses everything ever before offered to the World.

It gives a brilliant polish, and is not washed off by Castile soap until the leather is entirely spoiled, and will last as long as your leather. Ladies commend it very highly for their own, and

MISSES SHOES AND RUBBERS.

Adding to a brilliant lustre the virtue of not soiling the finest linen. For Gentlemen's

BOOTS, HARNESS, CARRIAGE TOPS,

TRUNKS, PATENT LEATHER AFTER WORN, and Leaf or of every description.

It is susceptible of Oil to Leather, and not only keeps out water, but preserves the leather, and keeps it from cracking.

Dealers' attention is respectfully invited to an examination.

Manufactured on Mississippi street, opposite the Eagle Furnace. Orders addressed to O. P. Sheldon & Co., Buffalo, N. Y., will meet with prompt attention.

RARE CHANCE.

THE STEAM SAW MILL, located on the Milwaukee and Fond du Lac Plank Road, about four miles from the city of Milwaukee, and about in good running order, is offered for sale at a bargain. The location is good for business as a Saw Mill or Flouring Mill, or almost any business requiring steam power. It will be sold as it is, or the machinery will be sold separate, if desired.

There are attached to the premises a convenient frame house, two log houses, large frame barn, blacksmith's shop, &c. &c. From 5 to 50 acres of land can be had with the property if wanted.

It is also a most excellent location for a Tavern Stand, and is, altogether, a valuable and desirable property. Part of the purchase money can remain on bond and mortgage.

THE subscribers, thankful for past favors, beg leave to announce that they have recently added the Foundry business to the former occupation of Mill scene manufacturing, and are now prepared to supply the public with as to an entire branch, on terms that will defy competition.

In offering our Stoves to the community, we do so with the full assurance that we can supply better articles than can be got in Canada or any other place being entirely new patterns, manufactured with care and from the very best materials. The following list of patterns is offered with the confidence that they will give satisfaction in every particular, viz:

THE ECONOMIST

DOUBLE OVEN COOKING STOVE.

(Which received the First Premium at the State Fair, lately held at Janesville.)

Possesses great advantages over every other stove, for plain flues and direct application of heat, being so arranged that one or both ovens can be used at pleasure. It will cook in half the time of any other stove now in use, and with half the fuel, as one coming up over four cords of wood in one year.

The TRIUMPH, single oven, takes in long wood, is an excellent stove—one that has been well tested, and given general satisfaction.

The PREMIUM is different in its construction from any other made, in the arrangement of the fire back—acknowledged to be a great improvement.

The JUNO PARLOR is adapted to either wood or coal, being decidedly the neatest arrangement ever offered to the public, having all the convenience of the stove combined with the beauties of the open grate. It is beautifully ornamental, highly finished, and perfect in every respect—the entire front above and below the grate being open or closed with three doors, and so arranged that when open they are completely out of sight. It is equally adapted to office and parlor use.

The RADIATOR is the best coal stove ever got up as a retainer of heat.

For one purchasing their stoves of us, in the event of any of the parts getting broke, can at all times be supplied with same at once, thus superseding the necessity of throwing away stoves, which many are daily compelled to do in buying Reliance stoves.

Those who are in want of an articles in our line, will find it to the advantage to give us a call, before purchasing elsewhere as we are confident we can satisfy the most fastidious. Our references given, where our stoves can be seen in operation. Stoves delivered and set up in any part of the city, free of charge. All orders promptly attended to.
